It is my philosophy that every member is a very important part of the guild and makes the Star Guild what it is. I believe that EVERY member has much to contribute—each in her/his own way—fortunately. I believe that we can continue to grow and be a supporting person when needed to lighten the work of all. I believe the “more we put in, the more we take away.” Everyone will not agree on everything, but I hope we will work to support every person's views and interests.
