Please Welcome New Member...

Becky Linkous lived in Hardy for over 20 years and is a member of the Lake Quilters Guild. She moved into a patio home in Roanoke in October to be closer to medical facilities and has been busy with remodeling and home repairs. When looking for a new home, quilting was on the top of the list. She has a fully finished basement sewing room with a bank of windows and a walk-in closet. During this quarantine remodeling time she has only made one quilt, "Spice Market," from the scraps in her stash. Her next project is to make two great nephews quilts since they are arriving in July, but as all of us know we never have all the material we need, so now she's going shopping for some pink and soft grey material to make the applique bunnies. Becky retired from Century 21 Real Estate in January, 13 years ago. She said no one should retire in January, because she got bored. She went to a Moneta store at the lake (which is now Mama Ann's) and saw quilting material and supplies so she took the list, bought the

materials, and signed up for the Log Cabin class for beginning quilters. She fell in love with the entire quilting experience and is thrilled that it “made her feel artistic.” She loves piecing and choosing colors but continues to strive to improve her skills in paper piecing and applique. Her goal is to make one quilt with her grandmother’s treadle sewing machine, since that machine is the one that she learned how to sew with when she was young. In 13 years, Becky has made so many quilts that when she was downsizing before the move, she invited relatives to come for her “Big Quilt Giveaway”.

PROGRAMMING/EDUCATION

May and June Programs Activities

During May the Guild’s Programs and Hospitality teams are joining together to hold our annual Spring Social. “April showers bring May flowers’ is the Social’s theme. Part 1 of the Social will be a presentation at our May 3rd guild meeting via Zoom by Donna Kittelson and Sue Berry entitled “Flowers, Flowers, Flowers.” Donna and Sue will present information on embellishing quilts with 3-D items and hand-embroidery.

Part 2 of the Social will be Saturday, May 8th, in the parking lot of Christ Evangelical Lutheran church from 9-1 pm. Please come to visit with other guild members a part of these hours and to receive a favor and a cupcake from Hospitality. Some members of the guild will be offering

quilting supplies and others items for sale.

At our June 7th guild meeting we will have nationally-known quilter Karen Combs making a presentation from Tennessee via Zoom. Karen’s presentation is “Quilts of Illusions.” We will learn how to create very interesting 3-D effects for quilts. We hope many members, even if you have not yet participated in a Zoom guild meeting, will come out for Karen’s talk. We expect it to be a very worthwhile event. We are offering a workshop taught by Karen on Saturday, June 19th. Details are on the guild’s website.

DID YOU KNOW

QAYG. Quilt As You Go. This is a method of quilting the individual blocks of a quilt before putting them together, and can be a much easier and less cumbersome alternative to quilting a large quilt on a domestic machine. It can save both time and frustration. And don't we all like to discover useful shortcuts?

While we don't all feel confident about quilting an entire quilt, anyone can quilt just a single block. So first, piece the blocks, sandwich them with batting and backing, and quilt as desired. Join the blocks into rows, join the rows, and finish with binding. My personal preference is to end the quilting stitches approximately one inch from the edges of the block to avoid bulk in the seams.

Probably the most common method of QAYG is to use sashing strips. There are lots of tutorials and videos available to learn how to do this. Beyond the use of sashing strips, I want to suggest two other methods that are fast and very simple. Quilt all your blocks and trim them to proper size, then try one of these ideas.

1. First is a real simple method. Simply put two blocks together with right sides facing each other. Fold back the backing fabric on one side so that it will not be caught in the seam. Sew with at least ½” seam. Trim seam to ¼” and trim batting out of the seam allowance. Press seam flat. Press under the raw edge of the backing fabric that was not stitched into the seam, and hand or machine stitch it down to cover the raw edges (remember that machine

stitching will show on your quilt top).

2. This second method is also simple. Anyone with a background in garment sewing will know this as a ‘flat fell’ seam. Sew your blocks together, right sides facing each other, using a 5/8” or more seam. Trim any batting out of the seam allowance. Trim one side of the seam to ¼”.** Press under the longer raw edge and fold it over the trimmed edge. Hand or machine stitch it down to cover the seam (remembering that machine stitching will show on the quilt top).

**If you don’t want to trim, just fold over both fabrics together to cover the seam.

Seaming can be on either the front or back of the quilt, depending on the look you want.

There are many variations on these techniques and you can tweak them to fit your own style.

Roanoke/Salem Loses Last Quilt Store

With the closing of the last quilt shop in the Roanoke area, I started thinking of my first attempt at quilting. Even though quilting runs through my family, I bought the “Quilting for Dummies” and preceded to ruin several yards of fabric. Then, I walked into Quilting Essentials and met Bernie and had a cookie. Through the next couple of years, I took many quilting classes at Quilting Essentials, Old Trinity Schoolhouse, and Creative Quilting Connections. I met new people, made many friends and learned so much about quilting and fabric. I became a serious fabric addict and a connoisseur of really high-quality fabric. First, Old Trinity Schoolhouse closed, followed by Creative Quilting

Connections and now Quilting Essentials. All great quilt stores run by wonderful, talented and creative people willing and wanting to share quilting with everyone. I can honestly say that I wouldn't be writing this article for a quilt guild newsletter without all of those VERY patient people.

I started thinking, "Where do I go for my fabric fix now?" and did a bit of research of quilt shops within 100 miles of Roanoke, VA. Here's the list ranked by distance. *~Fill Moody*
